

National Screening Programmes

- The NHS provides national screening programmes so that certain diseases can be detected at an early stage
- These screening programmes include bowel cancer, breast cancer, cervical cancer, aortic aneurysms and a diabetic eye screening service
- The law allows us to share your contact information with Public Health England so that you can be invited to the relevant screening programme
- More information can be found at: <https://www.gov.uk/topic/population-screening-programmes>

We are required by law to provide you with the following information about how we handle your information in relation to our legal obligations to share data
